ABSTRACT

Student enrollment data are provided for the 17 community and technical colleges (CTC) in Connecticut, focussing on academic year 1990-91. The report includes tables and graphs with information on full-time equivalent (FTE) enrollment by general fund, extension fund, and combined fund; summer 1990 FTE enrollment; FTE enrollment for fall 1989 and fall 1990; FTE enrollment for spring 1990 and spring 1991; full-time versus part-time enrollment for 1990-91; age distribution for fall 1990 for full- and part-time students; enrollment by sex for fall 1990; enrollment by ethnic group for fall 1990; fall 1990 program enrollments by sex in the community colleges and in the technical colleges; geographic distribution and percentages of town populations enrolled; and associate degrees and certificates awarded in 1991. Study highlights include the following: (1) the CTC served 48% of all undergraduates in Connecticut public institutions in fall 1990; (2) fall 1990 enrollment was 44,581 students and 21,282 FTE; (3) total fall 1990 enrollment showed a 0.7% increase and FTE showed a 2.7% increase over fall 1989; (4) fall 1991 FTE enrollment showed a 12% increase over spring 1990; (5) in fall 1990, 56% of CTC students were age 25 or older, while the average FTE student was 22; (6) 68% of fall 1990 community college students were women, compared to only 17% of technical college students; (7) 16% of CTC students were minority students of which 54% were Black and 33% were Hispanic; and (8) 43.5% of all fall 1990 students were enrolled in occupational programs. STUDENT ENROLLMENT STATISTICS
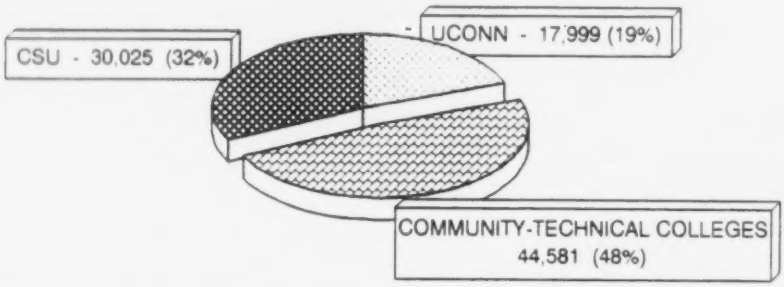
FOR
COMMUNITY-TECHNICAL COLLEGES OF CONNECTICUT

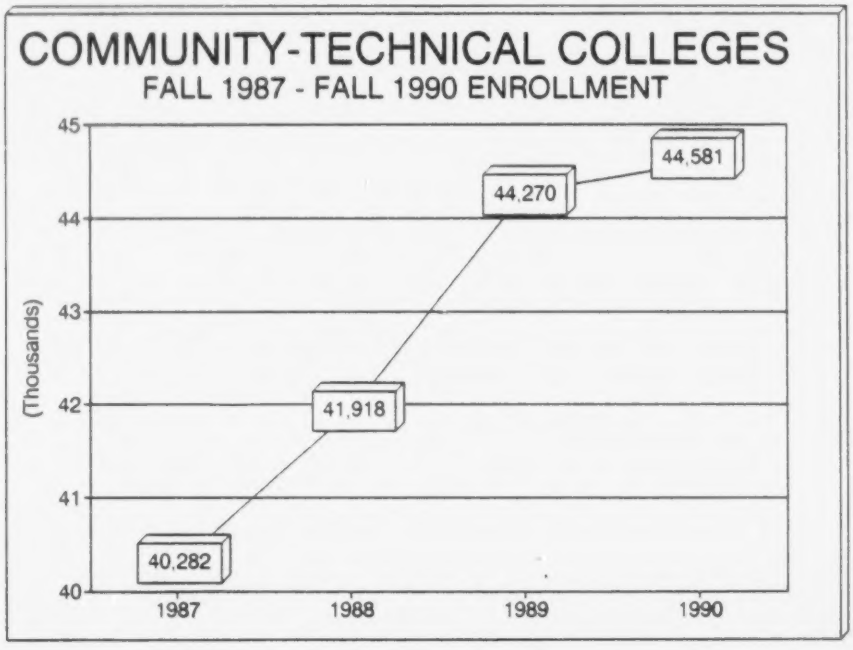
Academic Year 1990-91

The Community-Technical Colleges (CTC), the largest unit of undergraduate higher education in the state, served 48% of all undergraduates in Connecticut public institutions in the Fall of 1990.

HEADCOUNT ENROLLMENT
FALL 1990



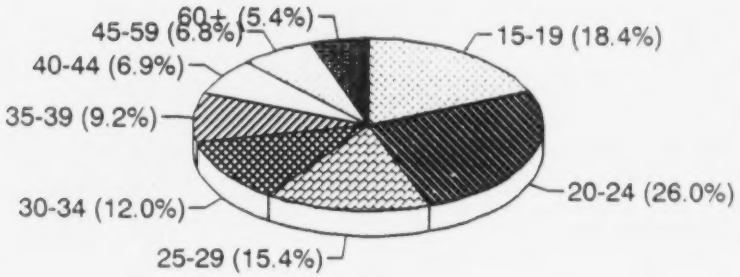
The Fall 1990 enrollment was 44,581 students, and 21,282 FTE. This represents a .7% increase over the Community-Technical College enrollment for Fall 1989, with a 2.7% increase in FTE. In the Spring of 1991, enrollment was 41,200 with an FTE of 19,780. Although this represents a 1% decrease in enrollment as compared to Spring 1990, there was a 12% increase in FTE.



The demographics of the CTC student population are similar throughout the 17 colleges. In both the Community Colleges and the Technical Colleges, the majority of students attend part-time. In the combined system, 75% of all students attended part-time in Fall 1990.

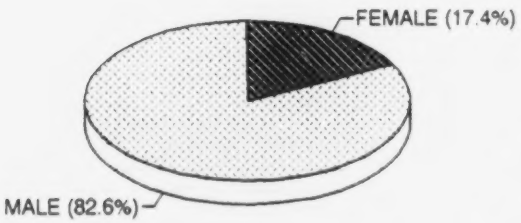
In the Fall 1990 semester, 56% of the students attending were age 25 or older. The average age of the full-time students was 22, while the average age of the part-timers was 33. The average age of the Community College part-time students was slightly higher than that of their Technical College counterparts. This is primarily due to the number of senior citizens taking classes at the Community Colleges.

AGE DISTRIBUTION
FALL 1990

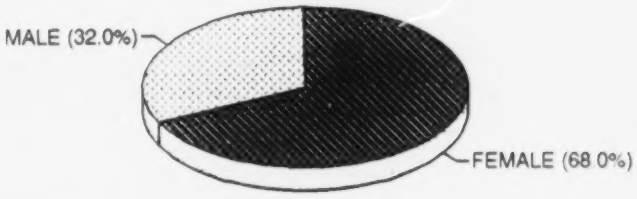


One area in which the two units do differ significantly is in gender distribution. Sixty-eight percent of the Community College students in Fall 1990 were women and 32% were men. In contrast, only 17% of Technical College students were women, while the majority, 83%, were men. The combined system's gender composition was 62.3% women and 37.7% men.

TECHNICAL COLLEGES

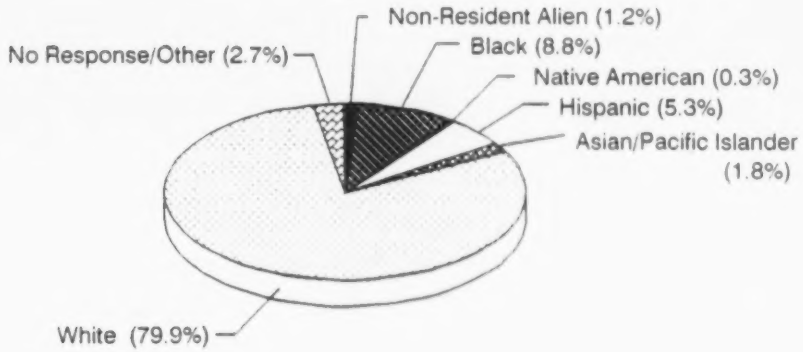


COMMUNITY COLLEGES



The ethnic representation of the CTC system includes 16% minority students and 1% foreign students. Fifty-four percent of the minority students are Black, 33% are Hispanic, and the remaining 13% represent a variety of backgrounds including American Indian and Asian. These figures are, again, similar within the two constituent units.

ETHNIC DISTRIBUTION
FALL 1990



In the Fall of 1990, 43.5% of all CTC students were enrolled in occupational programs. The occupational program area with the largest enrollment at the Community Colleges was Business and Data Processing; at the Technical Colleges, it was Electrical Technologies. Liberal Arts and Sciences and General Studies programs accounted for an additional 33.2% of all CTC students, and the remaining 23.3% of the students were not enrolled in a specific degree or certificate program.
